Low Height Semi-Vertical Cabinet for a Variety of Product

Low Height Semi-Vertical Cabinet for a Variety of Product

SMD1400

Features

With a large display area, stylish design and assured performance, this low height semi-vertical cabinet offers lower energy consumption while optimising life cycle cost.

Designed to ensure high visibility of products displayed within, the variety of shelf depths assures high loading capacity, combined with maximum product display.

Capable of multiplexing, this low height semi-vertical cabinet offers versatility in being able to display a variety of different merchandise from dairy to meat. The low height proves improved store layout perspectives.
